Mr. Bryant Williams – Human Services Coordinator I
ORANGEBURG AREA MHC
Years of Service: 3 years

Mr. Bryant Williams, is a hard worker who does an excellent job providing services to his clients. He comes to work early and is always geared up and ready to go above and beyond to make sure he gets the job done. Mr. Williams is very dedicated to linking clients and their families to other community resources to assist them with getting their needs met. One example of this is his success in linking youth to jobs within the community. He has a positive attitude towards his colleagues and also shows compassion towards his clients. His great working relationship with other agencies to include: Department of Juvenile Justice (DJJ), Department of Social Services (DSS), schools, etc. assists him in advocating for services for clients and improving the quality of services provided. He does well making sure that his clients receive necessary services, and he provides services to the Children's unit when emergencies arise or when situations arise with difficult clients.

In 2017, Mr. Williams maintained his productivity during the months that the center was fully operable. Mr. Williams actively participates on our in-house committees and even volunteers for other in-house activities when needed. He often speaks up to get other employees motivated to participate in center events. He is very friendly and often times just stops in to say "hello" to staff. Mr. Williams' strong work ethics and his ability to be a team player make him a dynamic Mental Health Professional.

In the community, he is a youth mentor, sports referee, and is active in his church. He is a very dedicated husband and father to his wife and children.
