

**Division of Inpatient Services**  
**Nutritional Services**

***Gary Randolph***

Mr. Gary Randolph is one of the “go-to” people in the Nutritional Services Department. He has an easygoing manner, extensive food service experience, and he quietly goes about his day working as a supportive leader. Mr. Randolph was promoted into a manager role in July 2018, being responsible for Shipping/Receiving and the Dish Room. Prior to that, he worked over 20 years in the food production area of the kitchen and was promoted to Supervisor in 2015. Prior to his time with SCDMH, Mr. Randolph spent over 10 years with the Richland County School District One.

He enjoys training new staff. He is a mentor for his direct reports and works with his team as a cross-functional work group assisting others where needed. He is willing to work in any area of the department. He is always here during weather emergencies to support our mission. He is a team player who remains committed to patient and resident needs at all times.

Mr. Randolph has a way of interjecting humor just at the right time when the team needs some comic relief. He is not afraid of change, takes pride in his job and is always willing to learn. He exemplifies the qualities an Outstanding Employee of the Year for the South Carolina Department of Mental Health.
