Sheila Hudson

Ms. Sheila Hudson has been with SCDMH - Patrick B. Harris Psychiatric Hospital (HPH) since October 2012. She is always willing to go beyond without being asked. HPH patients and staff love having her smiling face around. She has a knack for making patients excited to go to the recovery center and they will wait at the lodge doors for her to walk them down. When groups are complete, Ms. Hudson will go on lodges to meet with patients one-on-one who were unable to go to the recovery center. When she arrives in the morning, Ms. Hudson goes directly to “A” Lodge to assist as needed in any area and she then goes to set up for daily groups.

Ms. Hudson shows compassion, understanding, and love to patients, staff, and anyone with whom she comes in contact. Recently, when her own apartment building caught fire, Ms. Hudson assisted her neighbors by opening her home, as well as providing assistance information. She even sat with several of them through the night to talk and provide comfort, despite having to work the next day. You will never hear her brag about helping, however, when she sees someone in need, she just jumps into action. She does not say, "That is not my job." She just does what needs to be done.
