

Rebecca “Becky” Black
Registered Nurse
Tri-County Community Mental Health Center

Rebecca Black has been employed with Tri-County Community Mental Health Center since 1995. She is truly an outstanding clinician; her caring and nurturing nature helps her patients to maintain their stability in the community. When watching her interact with patients, the first thing one notices is her genuine concern for their wellbeing. Through the years, “Becky” has worn many hats for the Center, including serving as acting director (during some extended periods of time) for the Center’s Chesterfield Clinic. Though her base has always been Chesterfield, she has helped during times of nursing shortage to cover the other clinics, as well.

Ms. Black offers suggestions to her supervisor and management about ways that the Center can improve services for patients. She serves patients with a pleasant attitude in what can be a very stressful environment. As a nurse, she sees all of the patients (about 400) in the Chesterfield Clinic who are taking medications. She works patients into her busy schedule without complaint. She is very knowledgeable about both primary health care and mental health issues, and she understands the importance of taking care of both. She facilitates referrals to outside providers to help ensure that her patients’ healthcare needs are met. She willingly shares her wisdom with the other staff at the Center and has served as chair of the nursing committee for the Center in the past.

Ms. Black is a skilled nurse and a valued member of the Tri-County Community Mental Health team. She is dependable, responsible and exhibits all of the characteristics of a nurse who anyone would want taking care of him, her, or of a family member.
