

Specialty Programs

• School Mental Health Services

SCDMH is the leading School Mental Health Services provider across South Carolina. We provide school age children diagnostic services, intervention services, and a range of treatments including individual, group, and family therapy.

• TelePsychiatry

SCDMH is the largest provider of telepsychiatry, and telehealth, services in the state. The Program continues to expand in its scope and provides approximately 2,000 psychiatric services per month. Services are available 18 hours per day.

• Peer Support Programming

Peer Support Specialists add an additional layer of support in the treatment process. They use recovery tools, personal recovery stories, and community networking to assist peers in recognizing the opportunities of living the life they wish to live.

• Office of Deaf Services

A statewide system of care for the delivery of mental health services which promote recovery and allow enhanced mental functioning for Adults, Children and Families where Deafness presents a significant cultural and/or linguistic barrier.

• Multilingual Mental Health Services

SCDMH has systems in place to communicate with people whose first language is not English. These systems consist of phone services, web based information, documentation forms, educational materials, and clinical services as part of our commitment to serve all people in South Carolina.

Centers and Facilities

SCDMH serves all of South Carolina with 60 clinics across 46 counties.

About SCDMH

The South Carolina Department of Mental Health is dedicated to supporting the recovery of people with mental illnesses.

As South Carolina's public mental health system, it is one of the largest hospital and community based systems of care in South Carolina. Its numerous programs, services, and divisions are designed to ensure that South Carolinians in need receive the right treatment, at the right place, at the right time from a robust, interconnected, evidence-based system of care.

Who We Serve

We provide evidence-based outpatient, inpatient, and emergency response services for children, adolescents, families, and adults across all of South Carolina.

South Carolina Department of Mental Health (SCDMH) complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. SCDMH does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Outpatient Care

Our extensive network of community mental health centers (MHCs) and our diverse team of professionals provide evidence-based outpatient services across all of South Carolina. These services include.

- Individual Counseling & Psychotherapy
- Group Counseling
- Psychiatric Consultation and Treatment
- Nursing Support and Management
- School Mental Health Counseling Services
- Family Therapy Services
- Telehealth & In-Person Appointments

What We Treat

We treat a wide variety of a mental health conditions to include the following:

- Depression, Grief, & Loss
- Behavioral & Emotional Problems
- Suicidal Ideation & Attempts
- Acute Psychiatric Crises
- Stress & Anxiety
- Bipolar & Related Disorders
- Trauma & Related Problems
- Schizophrenia Spectrum & Psychotic Disorders

Inpatient Care

SCDMH is a leading provider of inpatient mental health and substance use services. The Division of Inpatient Services (DIS) is a system of inpatient services, offering programs for individuals who may need a more intensive level of treatment and care than community resources provide. Each facility specializes in different areas to include:

- **Children and Adolescents** (*Hall Psychiatric Institute*)
- **Adults** (*G. Werber Bryan Psychiatric Hospital and Patrick B. Harris Psychiatric Hospital*)
- **Substance Use Disorder Treatment** (*Morris Village*)

Emergency Services & Crisis Care

First Responder Support Team (FRST)

Our FRST Program offers specialized mental health services designed to assist first responders and their families. We understand the public nature of these positions and offer services in a highly confidential environment.

Mental Health Courts

SCDMH works in partnership with the legal system across South Carolina to provide Mental Health Court services - a diversion program designed for mentally ill defendants arrested for misdemeanor and non-violent felony offenses.

Mobile Crisis

SCDMH Mobile Crisis clinicians provide 24 / 7 / 365 day community based crisis response anywhere in South Carolina. Our goal is to provide patients throughout the state with immediate access to crisis services and the most appropriate level of care.

Office of Suicide Prevention

The Office of Suicide Prevention (OSP) works to address the issue of suicide through extensive training, awareness, and collaboration with other state agencies, nonprofits, communities, and medical and behavioral health care systems.
